

## About

AFRINIC holds two open public policy meetings every year in various locations throughout its service region. [AFRINIC Meetings](#) provide a unique opportunity for Internet-related individuals and organisations to gather to discuss the policies governing Internet number resource distribution in the African region, to share technical knowledge, and to attend workshops and tutorials.

The first meeting of each year is held during the [Africa Internet Summit \(AIS\)](#) . The annual AIS is a regional multi-stakeholder ICT conference which brings together Africa's ICT business and technical community to discuss regional and global ICT issues and challenges. The AIS is organised jointly by AFRINIC and AfNOG.

An Annual General Meeting (AGM) is also held during the first AFRINIC Meeting of each year.

## Upcoming Event
